

Evidex Helpline : +91 98100 68241

Advera's India Partner

Life science companies of all sizes trust Evidex to drive value from drug safety data and fulfill critical activities and requirements.

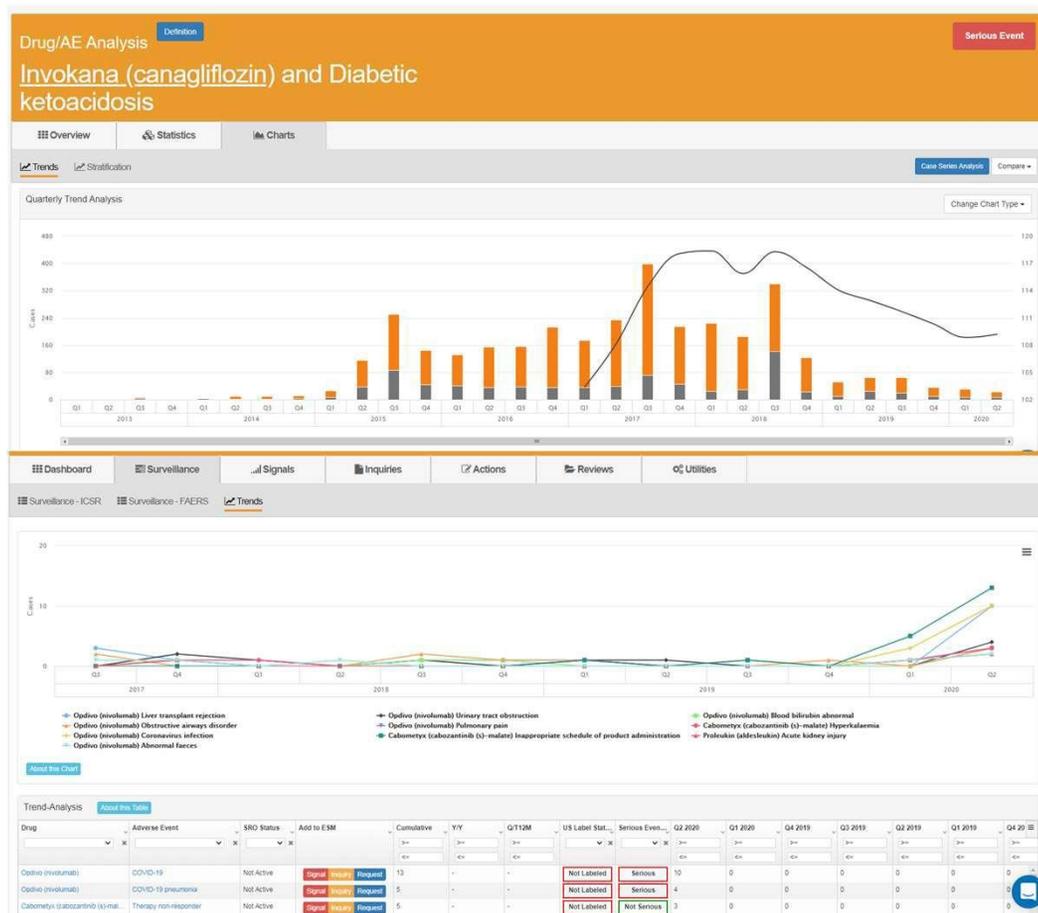

Why Evidex?

Safety Data – Proprietary & Interoperable

- ICSR (Argus / ArisG / Veeva)
- FAERS
- Clinical Safety & Efficacy
- EDC
- Vigibase
- EVDAS

All data is optimized, standardized, mapped, de-duplicated, and maintained by our in-house team using a combination of AI, ML, and tech-enabled analyst oversight.

Why Evidex?

One Integrated Platform

- ❑ Signal Detection
- ❑ Signal Management
- ❑ Advanced Safety Analytics
- ❑ Drug Safety Data & Services
- ❑ Custom Queries
- ❑ SaaS / Browser based platform
- ❑ Built on scalable Web 2.0 technology
- ❑ GVP-IX compliant and validated

Unlike other providers, everything you need is in one spot, modular, fully integrated, and ready to use off-the-shelf.

Why Evidex?

Unmatched Customer Experience

- ❑ Modern, user-friendly UI
- ❑ Dedicated in-house product specialist team
- ❑ Support by email, phone, in-app chat
- ❑ In-house technical team to support IT/QA

Clients choose us for our data and platform.
They love us for our customer experience.

“The value Evidex provides for the cost of the system is incredible. It allows a clinical stage company like Cerevel to leverage data, processes, and analytics developed in the pharmacovigilance department throughout the lifecycle of a drug.”

Wassim Aldairy
Head of Pharmacovigilance and Clinical Safety
Cerevel Therapeutics

“We understand the value of implementing technology solutions to enable our teams to scale rapidly. Our partnership with Advera Health Analytics has allowed us to free up resources, ensure regulatory compliance, and allow our pharmacovigilance department to drive value throughout our company now, and in the future as our needs evolve.”

Director of Safety Data & Analytics at Mid-Size Biopharma

Welcome to the future of pharmacovigilance
software
